UNITED STATES SILVER DOLLARS

(From the Cabinet of a Prominent Philadelphia Numismatist)

This series has been a favorite among collectors for many years. At our recent ANA Convention Auction Sale interest in this series seemed keener than ever and many records were set. We anticipate active bidding, especially considering the condition of the offerings listed below.

Dollars of the Philadelphia Mint

63—	1794. This is the original, very fine coin owned by W. W. Neil which he sold when he obtained the Uncirculated Pierce Specimen from us. He received \$800.00 for it but we do not believe that today it will realize over	\$675.00

65—	1795 Fillet head, three leaves below swings. A splendid, lustrous coin with beautiful purple surface. There is a small obverse scratch which does not detract from the coin's beauty. The wide date variety which sold in the World's Greatest Collection at	145.00
66—	1795 Bust type. Extremely fine, sharp and scarce in this condition	70.00

UNITED STATES PATTERNS

Patterns have always been a very interesting series, depicting as they do the history of our American Coinage. We often wonder why some of the proposed designs, so much more beautiful and meaningful than the regular designs, were discarded.

A new collecting scheme has been adopted by many who acquire the Patterns of the particular series in which they specialize. Others collecting a particular date get the patterns struck in that year. It all makes for considerably greater interest. Try it!

The standard work on this subject is by Adams and Woodin and references are to that book: AW 51, etc. Reprints are available at the NUMISMATIC GALLERY at \$3.50, a few originals at only \$6.00.

U. S. PATTERNS

A recent publication, "U. S. Pattern Coin Handbook," written by Col. James W. Curtis, breaks the entire series down to types in a manner intended to interest the beginner. (Price, \$1.50.) All Patterns are proofs unless otherwise indicated. This offering includes Col. Curtis' Collection as well as two other consignments.

1023—AW 4.	1792. Half Disme. Collectors of the regular issues often include this coin in their half dime series. Others consider it a Colonial item. UNITED STATES LARGE CENTS

LARGE CENTS

Dr. P. W. Whiteley Collection

N.B.—The recently published work, *EARLY AMERICAN CENTS* by Dr. William H. Sheldon has performed a great service for collectors. It does away with the need for varied and expensive publications. It sets up a new standard by which coins may be graded more accurately and at the same time sets up a value for each coin. Finally, it makes simple work of attributing almost all of the early cents. The book is a must for collectors of this series and is available at \$10.00. For the present we have attributed the cents by Sheldon numbers and in each instance, the corresponding Doughty, Clapp, Crosby Newcomb, etc., numbers are noted. Grading of each coin is based on the following scale:

G-4, 5, 6	Good
VG-7, 8, 10	Very Good
F-12, 15	Fine
VF-20, 30	Very Fine
XF-40	Extremely Fine
AU-50	About Uncirculated
MS-55, 60, 65, 70	Mint State (or Uncirculated)

Naturally G-6 is better than G-4; VG-10 better than VG-8; VF-30 is better than VF-20, and so on. We strongly urge everyone to get the Sheldon Book. We know you'll like it and we'll sell it to you on a 10-day money-back basis.

Money Talks

You folks are kinda nice. Writing such warm letters all the time and sending in your orders for our attention.

'Course we got some other kinds of letter, too, but they come so seldom we chalk it up to one thing or another. Somebody once said that if an angel came down from heaven, there would be critics complaining that the wings were too big or sump-thin'. Oh, well!

The MONTHLY coming into your homes regularly as it does is like repeated visits with old friends. We come in with a "Howdy-do" and your orders come back with a "Glad to see you."

That MONTHLY, by the way, certainly seems to please you—gosh, the January issue was a bit late getting out and we had lots of mail asking how come. Well, the holidays for one thing and we had a sale closing January 5th, and didn't want any overlapping.

That January 5th Auction did nicely, thank you. True, we had only \$10 and \$20 gold pieces listed but the 200-odd lots brought something over \$8,000.00. Guess there's still some cash around. Why not, you are only putting your cash into money!

The MONTHLY Auctions as a whole have had a very nice reception for which we thank you. We try to give diversified listings to appeal to all.

This attempt is also carried out in our FIXED PRICE offerings and we're bound to reach you sooner or later.

However, if you don't see what you want—as the old chestnut goes—ask for it. We modestly admit our stock doesn't have everything but we got

a few coins constituting one of the finest inventories in the country.

In March the MONTHLY will offer another of our Auctions, so keep your eyes peeled.

Say, I'll betcha some of you folks didn't even see a MONTHLY—well, you're probably gonna get the next issue. We hope you like it. If you do, write us, we like to hear from you.

If you have some criticism or suggestions, we want to hear them. We've got touch hides and can take it—but also there's an open mind which never shuts out an idea for betterment.

And if any of your friends or club members want our literature, their names would be appreciated. That's how we continue to build up our mailing list.

In order to make room for these new folks we kinda hafta drop a few now and then. 'Course we don't like to do it but they never let a guy hear from them. Shucks, maybe they've gone to China, or Heaven, or some place.

We ease them out, sorta—send them nice cards and so on—and if they don't answer in a reasonable time well, we don't have much choice.

Sure, none of you folks are gonna let that happen to you. How're you gonna prevent it? Well, any activity will keep you on our active list. A BID SHEET for this auction will do it—or a price list order—anything so we know you're in there pitching.

Well, we can't keep the printer here all night and he's gotta get the back cover done, too. Hear tell he's gonna put our pictures on it and somethin' about train rides. Let's take a look!

Abner Kreisberg

Li'l Abner's goin' a-hunting this Spring—not for Daisy Mae—it's coins he's after. His trip will be centered around the convention of the Central States Numismatic Society in Springfield, Illinois, and will take Kreisberg to New York City.

A stop in your city can be arranged. If you have a numismatic problem—if you want to buy or if you want to sell, here's your opportunity to do business first-hand with
